SM-200	SM-400/SM-600		

Features:

- 1) Customized according to your actual requirement and screw size.
- 2) Huge capacity, It can take 4000~40000 pcs of screws.
- 3) The reasonable design of firm structure makes feeding fast and stable.
- 4) Matched with screw shortage detector, It will pouring screws into the vibration bowl or other kind screw hopper automatically.
- 5) Soft PE coating can protect appearance of your screws or samples well to keep good quality.
- 6) Matched with the terminal of signal output and input, So it can be controlled by the PLC of your machine.
- 7) Several models are available to choose according to your machine.

Shipping list:

Complimentary accessories:

	1	Body	1 Set	Screw shortage detector	Power cord (Input)
	2	Screw shortage detector	1 Set		
	3	Power cord (Input)	1 Pcs		

Specification:

Item/Model	SM-200	SM-400	SM-600
Standard outlet quantity	1	1	1
Additional option	x	2 outlets available	
Screw size (mm)	Thread diameters≤2, Total length≤15, Screw head diameters≤5	Thread diameters≤5, Total length≤30, Screw head diameters≤10	Thread diameters≤10, Total length≤60, Screw head diameters≤20
Capacity (Pcs)	2000~10000	4000~20000	5000~10000
Detection method	Screw shortage detector (Proximity switch)		
Process treatment	x	Soft PE coating	
Dimension (mm)	140x134x240	300x300x550	550x550x1160
Weight (kg)	3.65	12.5	22

Technical matters to be confirmed before ordering:

- ① Screw size;
- ② Expected capacity of crew;
- ③ Expected overall dimension and height of outlet;
- ④ Requirement of screw or sample appearance protection;
