

# ENC Automatic tape dispenser (Standard type)

Output length adjustable + Operation easy + Compact structure, Occupy little space  
+ Output speed adjustable = Perfect function in your work

## Features:

- 1) Can cut the tape 60mm maximum in width.
- 2) Memory function (Set and save six different length values in advance).
- 3) Microcomputer intelligent control, LED display the current length value.
- 4) Can fix tape easily by the elastic tape shaft.
- 5) The safety protective barrier is ahead of cut, Prevent the accidental injury to worker's finger during operation.
- 6) When the alarm device is on, Even if the blockage is removed, the machine will not start to work right now but press the start again.
- 7) The machine shell is antistatic ABS material.

## Applicable tape:

Sericin belt, Hard tape, acetate fiber, glass wall paper, double-sided adhesive, nomex, sealing glue, scotch tape, industrial tape, masking tape, and plastic tape, etc.

## Model and specification:

Item/Model	ZC-9	ZC-10
Cut length (mm)	20~999	5~999
Cut width (mm)	7~50	6~60
Operation patters	Automatic/manual	Automatic/manual
Room temperature (°C)	5~40	5~40
Humidity of environment	80% RH or below	80% RH or below
Power consumption (W)	18	25
Power supply	110~240ACV,50/60Hz	AC110~240V,50/60Hz
Color	White/black	Gray
Display type	three figures light emitting diode	three figures light emitting diode
Cutting precision (mm)	±0.2 (Depend on the tape type)	±0.5 (Depend on the tape type)
Core dia. (mm)	25、35、76 (1"、1.4"、3")	25、35、76 (1"、1.4"、3")
Drive type	DC motor	DC motor
Tape quantity for one time	1 piece	2 pieces
Shell material	ABS	ABS
Dimension (mm)	245x137x156	213x116x140
Weight (kg)	Net 2.4, Gross 3.1	Net 2.5, Gross 3.4
Instruction video	Available to supply	Available to supply

## Introduction figure:

## Accessories:

Power cord, 2A fuse, separator, guide plate, tweezers, blade oil.

# ENC Automatic tape dispenser (Rotation type)

Cutting length adjustable + Operation easy + Compact structure,small dimension

Cutting speed adjustable = Perfect performance in your work

## Features:

- 1) Cutting width 60 mm Max.
- 2) Use the rotation table to dispense the cut tape,It can supply tape for more than one worker.
- 3) Infrared ray induction,high sensitivity.
- 4) Improve the productivity and decrease the produce cost.
- 5) The cutting length are the same.The error is within  $\pm 0.2\text{mm}$ .
- 6) Can meet different type tape.
- 7) The cutting is tidy,nice and burr-free.
- 8) Freestyle tape shaft, Can meet different size adhesive tape.
- 9) Use the knob to adjust the cutting length of tape and interval time.  
Easy to replace the blade,no adjustment again.

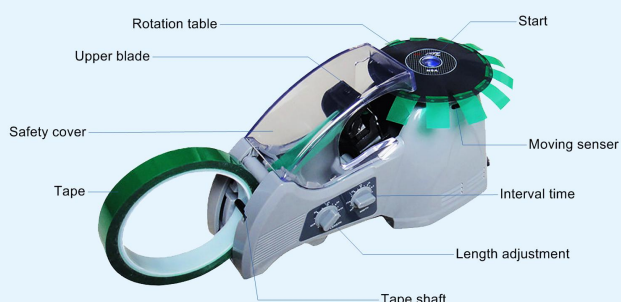

## Application Tape:

Sericin belt,Hard tape, acetate fiber, glass wall paper, double-sided adhesive, nomex, sealing glue, scotch tape, industrial tape, masking tape, and plastic tape, vinyl tape,polyethylene tape,teflon tape etc.

## Model and specification:

Item/Model	ENC-1000
Cut Length (mm)	12~60
Tape Width (mm)	3~25
Operation Patters	Automatic/manual
Room Temperature (°C)	5~40
Humidity of Environment	80%RH or below
Power Consumption (W)	40
Power supply	110~240ACV,50/60Hz
Dispense pattern	Rotation table
Adjustment pattern	Rotation knob
Cutting precision (mm)	$\pm 0.2$ (Depend on the tape type)
Core Dia. (mm)	25、32、75
Drive type	DC motor
Shell Material	ABS
Dimension (mm)	260x130x145
Weight (kg)	Net 2.2,Gross2.9
Instruction video	Supply the clear video

## Introduction figure:

## Accessories:

Power cord, 2A fuse (built-in AC plug),  
One set blade(Upper blade and under blade).

## Consumable:

One set blade
