

ENC Pneumatic rivet gun, Pneumatic pull setter, Rechargeable rivet gun

Operation easy + Durable + Applicable to rivet and nut pull = Perfect function in your work 殷信ENC 自动化

Pneumatic rivet gun

Features:

Applicable for rivet of various texture + Automatic rivet absorption + With rivet collecting bottle

- 1) Ultra light weight and ergonomic design of grip make operation comfortable.
- 2) Automatic absorbing and rejecting rivets, equipped with screw collecting bottle.
- 3) Chromium molybdenum steel jaws of three-jaw type greatly extend the service life.
- 4) One-body integrate grip and drill result in stable structure, lighter weight and higher accuracy.
- 5) Die casting process is adopted for the body, no bubble, no impurity and good seal.
- 6) Alloy steel turning heat treatment is adopted for inner jacket and top sleeve.

Model and specification:

Item/Model	PAR-01	PAR-02	PAR-03	PAR-04
Air pressure (kg/cm ²)	5.5±0.5	5.5±0.5	5.5±0.5	5.5±0.5
Pull Max (KN)	9.8	13.7	15.7	18.0
Working stroke (mm)	20	21	26	20
Noise level (dB)	60	63	65	65
Net weight (kg)	1.4	1.55	1.7	1.8
Dimension (mm)	310x110x270	320x130x330	320x130x330	325x130x335
Rivet size (mm)	2.4~4.8	2.4~4.8	2.4~6.4	2.4~6.4
Rivet texture	Aluminum/iron/stainless steel/copper/entire iron/entire stainless steel			

Air pull setter

Features:

Apply to screw cap of various texture + operation easy + High efficiency

- 1) Applicable to internal thread plug-in components, such as nut, rivet series (M3~M12).
- 2) Die casting processing is adopted for the body, no bubble, no impurity and good seal.
- 3) Ergonomic design grip makes the operation comfortable.
- 4) New technology is adopted to reduce the failure due to part friction as much as possible. So it is durable and performance is stable.
- 5) One-body integrate grip and drill result in stable structure, lighter weight and higher accuracy.

Model and specification:

Model	Air pressure	Pull Max	Working stroke	Nut size	Nut texture	Dimension (L*W*H)	Net weight
PAN-01	5.5±0.5kg/cm ²	2500kg	9mm	M3~M12	Aluminum/iron/ stainless steel	250x115x280mm	2.3kg

Rechargeable rivet gun

Features:

Operation upon charging + Various special workplaces

- 1) 12 V lithium battery is adopted for power supply, it is portable and the operation is simple.
- 2) Rapid charging requires only 60 minutes, one charge can sustain pulling 200 rivets.
- 3) Die casting processing is adopted for the body, no bubble, one-body integration gun.
- 4) Setting of clockwise and counterclockwise can solve the failure of not injecting rivets.
- 5) It is equipped with 4 guide mouths and 2 battery.
- 6) Ultra light weight and ergonomic design of grip make operation comfortable.

Model and specification:

Model	Working voltage	Pull max	Rivet size	Rivet texture	Charging time	Net weight
PRV-01	12DCV	13.7KN	2.4~4.9mm	Aluminum/iron/stainless steel	60 min	1.8kg
